10 Bloomsbury Way
London WC1A 2SL

NATRIUM CAPITAL LIMITED

Opportunity for Chemistry or Chemical Engineering Masters or PhD

Chemicals Investment Banking - Trainee Research Analyst

Full time permanent post, based in Central London

Job Specification

Salary:

£ Competitive

Company description:

[Natrium Capital Limited](#) provides [investment banking](#) services to the [Chemicals and Materials sectors](#). It specialises in delivering strategic corporate finance advice to the Chemicals – including speciality and fine chemicals – chemical distribution, engineering materials, and sustainable technology industries and in completing corporate transactions. The company's focus is on [mergers and acquisitions, divestments, and strategic advisory projects](#).

The company is based in Bloomsbury in London, with strategic alliances in global locations.

Job description:

This is a full-time paid post, mostly based in the office in London, but travel may be required.

As part of the [team](#), the trainee research analyst will have the opportunity to be a part of all aspects of the corporate finance process and gain exposure to different aspects of executing assignments through working with senior professionals. The job involves supporting senior staff in a range of research, analytical and presentation preparation roles and working within the team to provide clients with high quality levels of advice in a timely and efficient manner.

This is an opportunity for the right individual to join our growing team. Self-motivation will be important. You will be expected to work independently, and accurately, under guidance.

You will be expected to learn from both informal and formal training. You will learn how to evaluate businesses and how to analyse their profit and loss and balance sheet statements. You may be required to take internal training as appropriate. In addition,

you would be expected to undertake learning to pass examinations (accredited by the CISI or others).

Person Specification:

We are looking for a highly motivated individual with a keen interest in both finance and the Chemical industry.

You should be able to demonstrate by your experiences, either at university or elsewhere, the following:

- Curiosity to learn about the Chemical industry in practice
- A keen interest in current affairs
- A commitment to acting with honesty and integrity

Candidates must also have the following:

- A Masters or doctorate in Chemistry or Chemical Engineering, or similar
- Exceptional numeracy skills. [This should be demonstrated by a minimum of a Grade A or A* in Mathematics at A Level and continuing Mathematics education whilst at University.]
- Excellent computer skills – especially MS Word, Excel and PowerPoint
- Familiarity with video conferencing such as Zoom and Microsoft Teams
- Good interpersonal skills
- UK passport or Right to work and Right to remain in the UK

How to apply:

Please send your CV and a covering letter to info@natriumcapital.com.

The covering letter should explain your suitability for this role by setting out your knowledge of science and the chemical industry and why your personal qualities or experiences suit you to [a career in chemicals investment banking](#).

Please also include the name and contact details of one referee who can comment on your character, honesty and integrity and a second referee who is able to comment on your academic standing (including any grades achieved at university) and general suitability for the role.

Natrium Capital is an equal opportunities employer.

Applications close on **Monday 31st March 2025**, unless the right candidate is appointed before this date.
